

Bedford Glass Fibre Mouldings is an established and experienced specialist in the consultancy, design and production of glass reinforced plastics. We offer a variety of services to a wide range of clients many of whom are in the water treatment, automotive, aerospace and health industries.

Aesthetics are all important and with our innovative designs and thirty years of experience, we are able to provide a fast, efficient and cost effective service.

Focusing on low volume projects in-house and project managing larger scale out-sourced projects, Bedford Glass Fibre Mouldings offers the same high levels of customer service and attention to detail to every client.

Bedford Glass Fibre Mouldings is a family business employing skilled craftsmen using traditional methods. We use only the highest quality materials to create our bespoke products. Attention to detail is key to our success and we employ quality control systems to guarantee perfection every time.

Our products are used throughout the UK in diverse and wide ranging applications encasing and protecting some of industry's most complex equipment.

● From aircraft simulators to ornamental ponds ● From coach conversions to water tanks ● From rubber ice moulds to retail signage ● We can produce solutions to all your design needs.

We are experienced in a wide range of areas including:

Composites

Prototypes

Aerospace

Automotive

Bus & Coach

Simulations

Water Treatment

Road & Transport

Industrial

Engineering

Leisure

Retail

Tank Renovation
